

LOCAL MARKETING PORTFOLIO

Welcome and thank you for your purchase!

We have created a detailed guide on installing and setting up the Local Marketing Portfolio Theme. Please go through it and let us know if you get stuck at step. The initial requirement for installing the theme is that you have to have your own WordPress website. This theme will only work with WordPress. If your current website uses a different platform, it would be best to contact your website administrator.

If needed, we are available at support@kvsocial.zendesk.com

Cheers!
